***STANDARDS OF LIFE***

Huntington University strives to create and promote an atmosphere which will encourage the student to develop the highest attainable degree of maturity within the framework of an evangelical Christian faith. The primary obligation of all students is to live as a responsible member of a Christian community, seeking to live up to their own ideals as they grow personally, morally, and spiritually. The Christian life is primarily positive rather than negative; creative, loving service to others is far more important than adherence to a list of detailed prohibitions.

Huntington University has historically sought to create an alcohol and smoke-free environment. We therefore ask graduate students to respect this tradition by refraining from alcohol and tobacco use as they participate in Huntington University learning experiences.
