"Did You Know" - If you slam your finger in a door or hit your finger with a hammer, you can reduce the risk of losing the nail by immediately squeezing the fingertip and keeping pressure on it for about five minutes. This minimizes internal bleeding and swelling, which can displace the nail root from its bed. Icing can help, too.

Also, if students are still needing to receive a Menomune shot for meningitis, tetanus shot, or TB test, stop by Health Services between the hours of 10:00 a.m. and 2:30 p.m. to have those completed. If these shots or tests are **not complete** students can also be placed on hold status. Students that are still needing to begin the Hepatitis A or Hepatitis B shot series, need to begin the series immediately. **Both the Hepatitis A and Hepatitis B shots are required for those students going to assist with hurricane relief or traveling outside of the United States.** Please keep in mind that the Hepatitis A is a 2-shot series and the Hepatitis B is a 3-shot series.
