Bro. Howe:-

When offers are made to go to Africa, they are to be considered thoughtfully. Rev. Mr.

Guyer's age, education, appearance and family are favorable, except that they would have to leave their little girl in America. In southern Kansas, we had a minister twenty years ago by the name of Guyer, a good man. This may be a son or nephew. They educated. Joseph Guyer, a layman well educated and his wife also well educated, lives near Stafford, Kansas, warm friends of mine. ~~Joseph is a son of that old minister.~~ I do not think that R. P. Guyer has been in any of our conferences since the division, and I do not find his name in the Liberal Year Book of 1894, 1896, 1903, 1904, or 1905. Denomination does not make as much difference there as here. But the prospect of use for him soon is not flattering. I suppose I could get local information concerning him as I have been at Cleo, and Aline. I dare say he would equal Morrison! I enclose his letter and photo, returned.
