

P. S.

Bro. Stemen did not pay my traveling expense to the last meeting of the Executive Meeting Committee. They were \$2.45 from Huntington home, which is all I charge for. I generally charge less than actual cost of fare; for sometimes I have business that can be done in the trip. There was none of importance this time. M. W.

Note.--

I have a letter from the Brookville correspondent--the best I have there-- saying that at Liberty class (society), the majority are mildly for Keiter. But he thinks that if our pastor would come on and go to work, saying nothing on the controversy, they would receive him. He said the seceder appointee (A. L. Stanley) had not been there. No negotiation on terms ought to precede one or two appointments.

From Sister Null, I learn that she knows of but her family and Bro. Daughter's that are loyal there Nulls are the best people in the class (society)

at Marion, and free to support, M. W. she knows not how they stand at North Grove or

the same circuit

I hope that Dr. Clay has become more friendly to our White River work, than when I saw him last. He seemed dogmatical and sour. Possibly those in the field may understand the situation as well as he does. He would dictate the speed of movements of courts, which all experience proves to be impracticable. The man who had a case in chancery and also a troublesome hog, wished it in chancery, as "it would never get out"! The the court was disconcerted when his servant brought the squealing hog and turned it into the courthouse, to upset the chairs and tables, and paralyze the court!
