NOTES:

1. Biology majors must demonstrate satisfactory mathematics placement scores prior to enrolling in their intended chemistry, mathematics or physics courses (*see mathematics placement policy in Catalog under Academic Information*).
2. BI 141 Freshman Biology Seminar is strongly recommended.
3. Eighteen additional hours required from biology and agribusiness, including at least three courses from AG 231/L, 351/L, BI 322/L, 371/L, 422/L (or AG241), and ES 211/L.
4. Pre-vet students are strongly advised to take several business courses, especially BA 232, 252, and 331.
5. For students planning to attend graduate or professional school, calculus is strongly recommended.
6. Majors must be careful in selection of electives so that a sufficient number of upper division courses are taken. A minimum of 36 hours of 300+ courses is required for graduation.
7. Course prerequisites for veterinary schools can vary considerably between institutions. Please examine the requirements for the institutions you are interested in attending and discuss these with your advisor.

*Indicates alternating year course.

Underlining indicates required for major.
