### NOTES:

- CH 161/L Principles of Chemistry I may be taken in place of CH141/L Intro to Biological Chemistry. If CH 161/L is substituted, it must be taken in the fall of the freshman year.
- MA 151 Probability and Statistics is necessary and will fulfill the core math requirement.
- PS 111 Public Policy is recommended.
- At least fifteen hours are required from: AG 251, 331/L, 335, 341/L, 361/L, and BA 331.
- Students are required to have 120 hours to graduate, including a minimum of 36 hours of 300+ courses.
- Students who have taken AP exams, early-entry or dual-credit courses may be able to lighten the number of credits needed during a given semester and may even eliminate the need for summer coursework. The Registrar's Offices' evaluation of prior coursework will help students and their academic advisors plan out degree requirements.

\*Indicates alternating year course.

Underlining indicates required for major.
