Guide to Typical Programs, 2022-2025

Accelerated Pre-Pharmacy Program

3-Year Plan

Advisors: Drs. Evans and Nalliah

Note that this is a "Typical Program." Actual programs will vary. See the Academic Catalog for official details.

Fall 2022			Spring 2023			Summer 2023		
CH 161:	Principles of Chemistry I	4	BI 161:	Cell Biology ³	4	MA 141:	College Algebra & Trig ²	4
HS 115:	Hist Persp on Cult & Civ I	3	CH 162:	Principles of Chemistry II	4			
EN 121:	Academic Writing & Research	3	CO 215:	Public Speaking	3			
EB 211:	Principles of Macroeconomics	3	HS 116:	Hist Persp on Cult & Civ II	3			
EX 101:	Wellness for Life	2						
		total 15			total 14			total 4
Fall 2023			Spring 2024			Summer 2024		
CH 263:	Organic Chemistry I	4	CH 264:	Organic Chemistry II	4			
MA 171:	Calculus I	4	MA 151:	Intro to Probability & Statistics ⁴	4			
PH 211:	Principles of Physics I	4		Electives ⁵	7			
	Elective ⁵	3						
		total 15			total 15			total
Fall 2024			Spring 2025			Summer 2025		
BI 241:	Human Anat & Physiology I	4	* BI 432:	General Microbiology ³	4			
	Electives ⁵		* SO 141:	Cultural Anthropology	3			
				Electives ⁵				
		total			total			total

NOTES:

1. This Guide to Typical Programs is based on the pre-pharmacy requirements of the Manchester University College of Pharmacy, which include 6 to 8 hours of biology courses; BI 232 or 432; CH 161, 162, 263, 264; CO 215; EN 121; MA 151, 171; PH 211; EB 211 or 212; HS 115, 116; SO141; and other electives as needed to total 60 semester hours. Other pharmacy schools may have requirements that vary. Students may elect to complete a biology or chemistry degree at HU prior to enrolling in pharmacy school.
2. The mathematics placement exam determines whether MA 141 College Algebra & Trigonometry is needed in the summer. Otherwise, MA 171 Calculus I can be taken in the fall of the freshman year.
3. BI 161 Cell Biology is needed if taking BI 432 General Microbiology.
4. If pursuing a chemistry major, MA 172 Calculus II should be taken by the spring of the sophomore year, and MA 151 can be taken later, depending on the requirements of the pharmacy school.
5. Electives are recommended from the biology or chemistry major or from the Core Curriculum, in consultation with the pre-health-professions advisor.

*Indicates alternating year course.

Underlining indicates required for major.
