Guide to Typical Programs, 2018-2021

Accelerated Pre-Pharmacy Program

3-Year Plan

Advisors: Drs. Evans and Nalliah

Note that this is a "Typical Program." Actual programs will vary. See the Academic Catalog for official details.

Fall 2018	J-Term 2019	Spring 2019	Summer 2019
CH 161: Principles of Chemistry I 4 HS 115: Hist Persp on Cult & Civ I 3 EN 121: Academic Writing & Research 3 EB 211: Principles of Macroeconomics 3 EX 101: Wellness for Life 2 total 15	Required J-Term 2 total 2	BI 161: Cell Biology ³ 4 CH 162: Principles of Chemistry II 4 MA 141: College Algebra & Trig ² 4 HS 116: Hist Persp on Cult & Civ II 3 total 15	total
Fall 2019	J-Term 2020	Spring 2020	Summer 2020
CH 263: Organic Chemistry I 4 MA 171: Calculus I 4 PH 211: Principles of Physics I 4 Elective ⁵ 3 total 15	Required J-Term 2 total 2	CH 264: Organic Chemistry II 4 MA 151: Intro to Probability & Statistics ⁴ 4 CO 215: Public Speaking 3 Elective ⁵ 4 total 15	total
Fall 2020	J-Term 2021	Spring 2021	Summer 2021
BI 241: Human Anat & Physiology I 4 Electives ⁵ total	Required J-Term 2 total 2	* BI 432: General Microbiology ³ 4 * SO 141: Cultural Anthropology 3 Electives ⁵ total	total

NOTES:

1. This Guide to Typical Programs is based on the pre-pharmacy requirements of the Manchester University College of Pharmacy, which include 6 to 8 hours of biology courses; BI 232 or 432; CH 161, 162, 263, 264; CO 215; EN 121; MA 151, 171; PH 211; EB 211 or 212; HS 115, 116; SO141; and other electives as needed to total 60 semester hours. Other pharmacy schools may have requirements that vary. Students may elect to complete a biology or chemistry degree at HU prior to enrolling in pharmacy school.
2. The mathematics placement exam determines whether MA 141 College Algebra & Trigonometry is needed in the spring. Otherwise, MA 171 Calculus I can be taken in the fall of the freshman year.
3. BI 161 Cell Biology is needed if taking BI 432 General Microbiology.
4. If pursuing a chemistry major, MA 172 Calculus II should be taken by the spring of the sophomore year, and MA 151 can be taken later, depending on the requirements of the pharmacy school.
5. Electives are recommended from the biology or chemistry major or from the Core Curriculum, in consultation with the pre-health-professions advisor.

*Indicates alternating year course.

Underlining indicates required for major.
