

Huntington University | Students in Peoria, Arizona

Huntington University will complete the 2020 spring semester, including any May term courses, in an online format. This decision was not made lightly. The timing of the decision allows the University to prepare for the remaining weeks of the semester.

The HU Arizona faculty and staff are working hard to create the best online learning courses possible. Computer labs and other designated technology spaces will remain open for limited student access. Also, the HU Arizona team will be bringing you online programming to encourage your faith. The first one is scheduled for next week!

There is a new normal. The Forester experience will not be tainted by this time in our lives. We will have walked through this together!
