

If a student tests positive for COVID-19

COMMUNICATION:

Home Campus

Student notifies Residence Hall Director or Office of Student Life: (260) 359-4299
Residence Hall Director notifies Dean of Students or Vice President for Student Life
Notification provided to Chief Operating Officer for coordination with local health officials

HU Arizona

Student notifies Director of Arizona Operations: (480) 939-5004

HU Fort Wayne

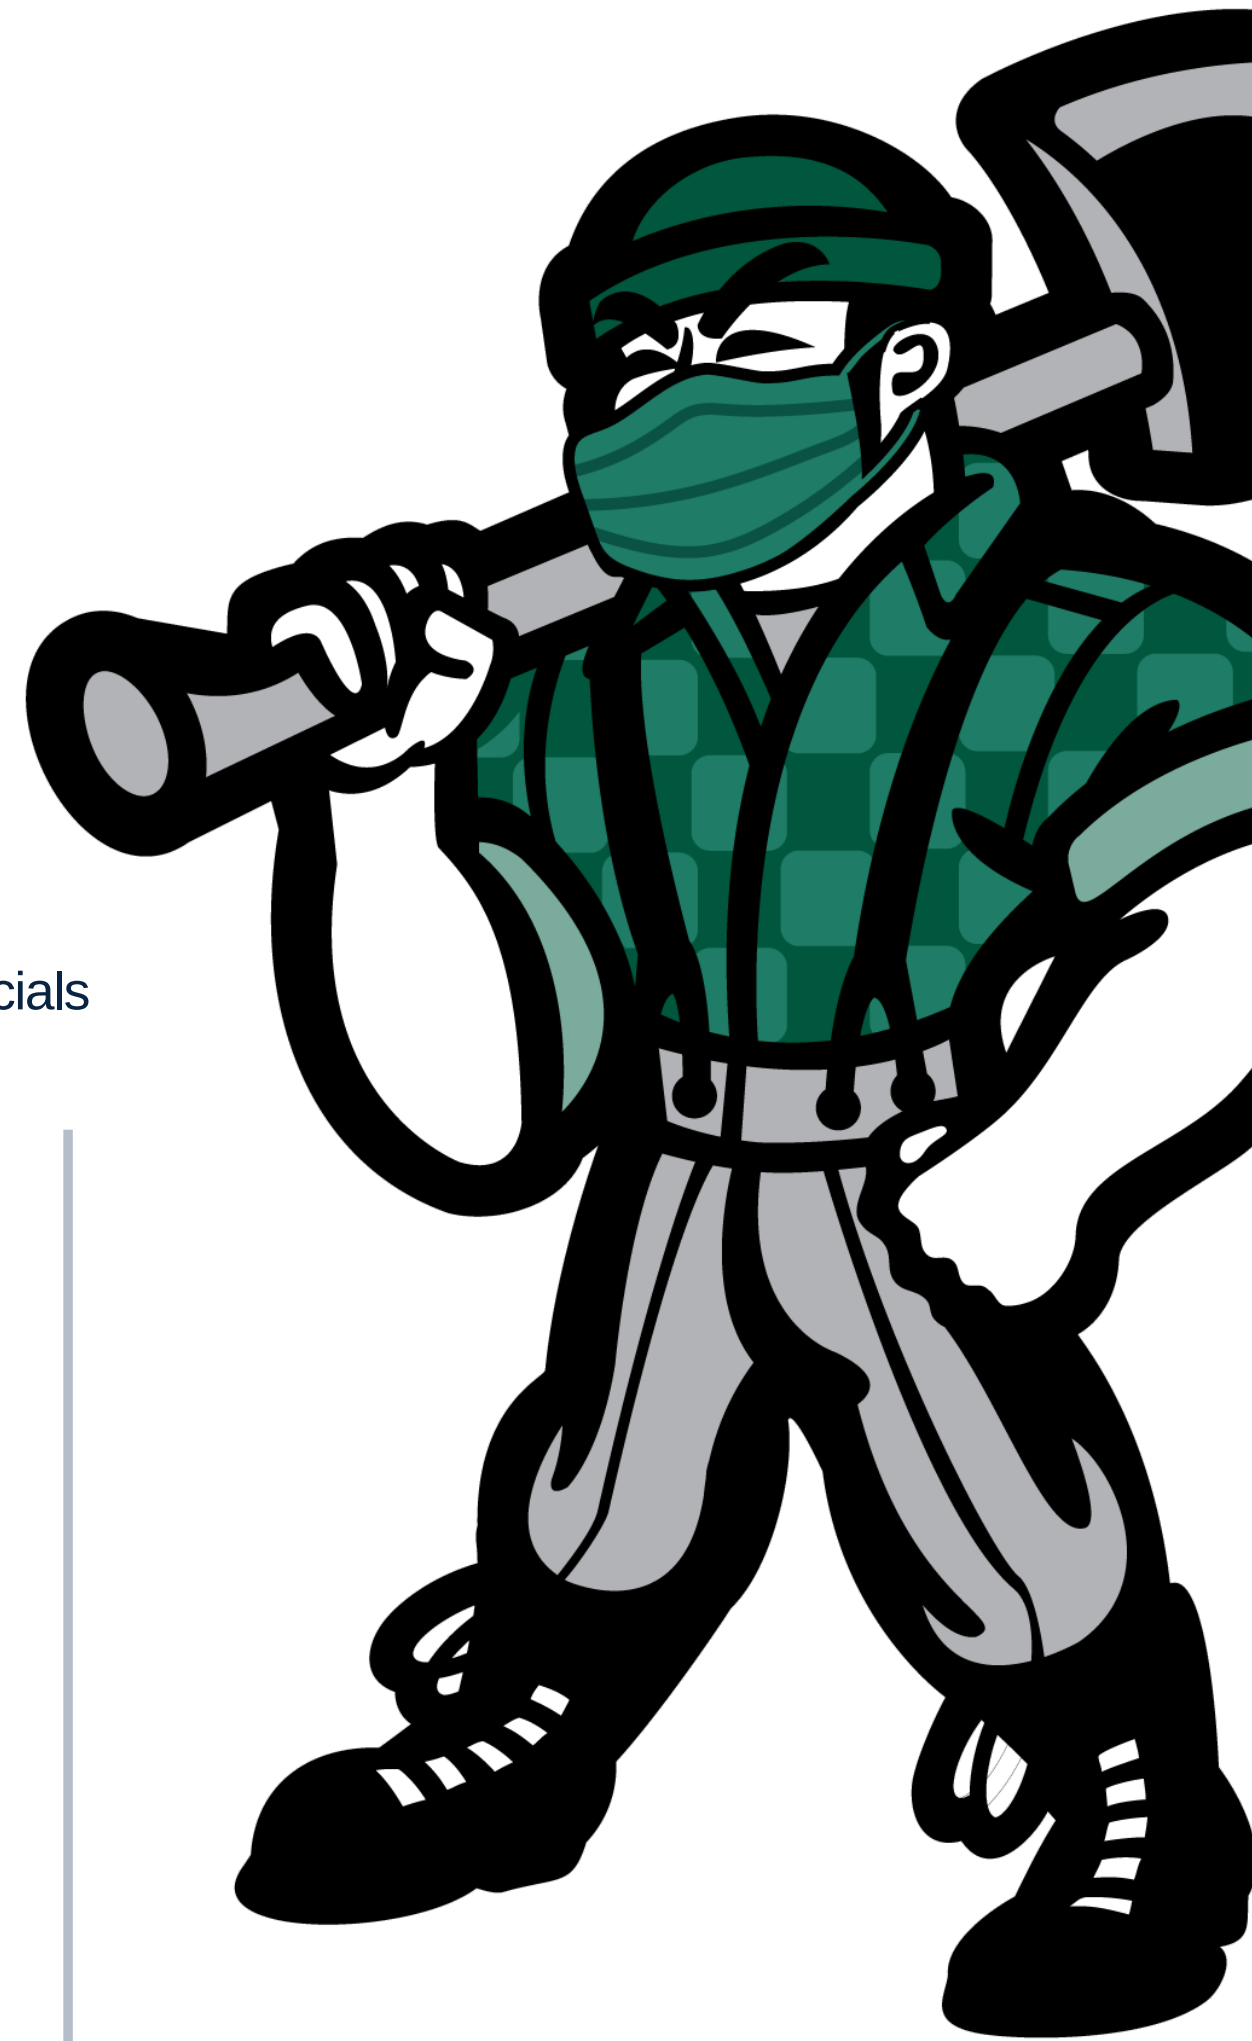

Student notifies Program Director: (260) 702-9620

IMMEDIATE ACTION STEPS:

- Student will consult healthcare provider and/or ForesterCare
- University will help students living in campus housing transition into isolation setting, which includes housing and dining availability
- Student will communicate with faculty to arrange remote course attendance
- University will participate in contact tracing in coordination with local health officials to determine risks of exposure to others

FOLLOW UP ACTION STEPS:

- Isolation period will end after symptoms have improved, at least 10 days since symptoms first appeared, and at least 24 hours with no fever without fever-reducing medication
- University administrator will need to confirm reintroduction to other campus spaces
- Additional action steps may be communicated for specific programs, namely those with external experiences (i.e., clinicals, internships, etc.)

ISOLATION & QUARANTINE...

help protect the public by preventing exposure to people who have or may have a contagious disease.

Isolation separates sick people with a contagious disease from people who are not sick. **Quarantine** separates and restricts the movement of people who were exposed to a contagious disease to see if they become sick.

If a student has prolonged contact with an individual who tests positive for COVID-19

COMMUNICATION:

Home Campus

Student notifies Residence Hall Director or Office of Student Life: (260) 359-4299
Residence Hall Director notifies Dean of Students or Vice President for Student Life
Notification provided to Chief Operating Officer for coordination with local health officials

HU Arizona

Student notifies Director of Arizona Operations: (480) 939-5004

HU Fort Wayne

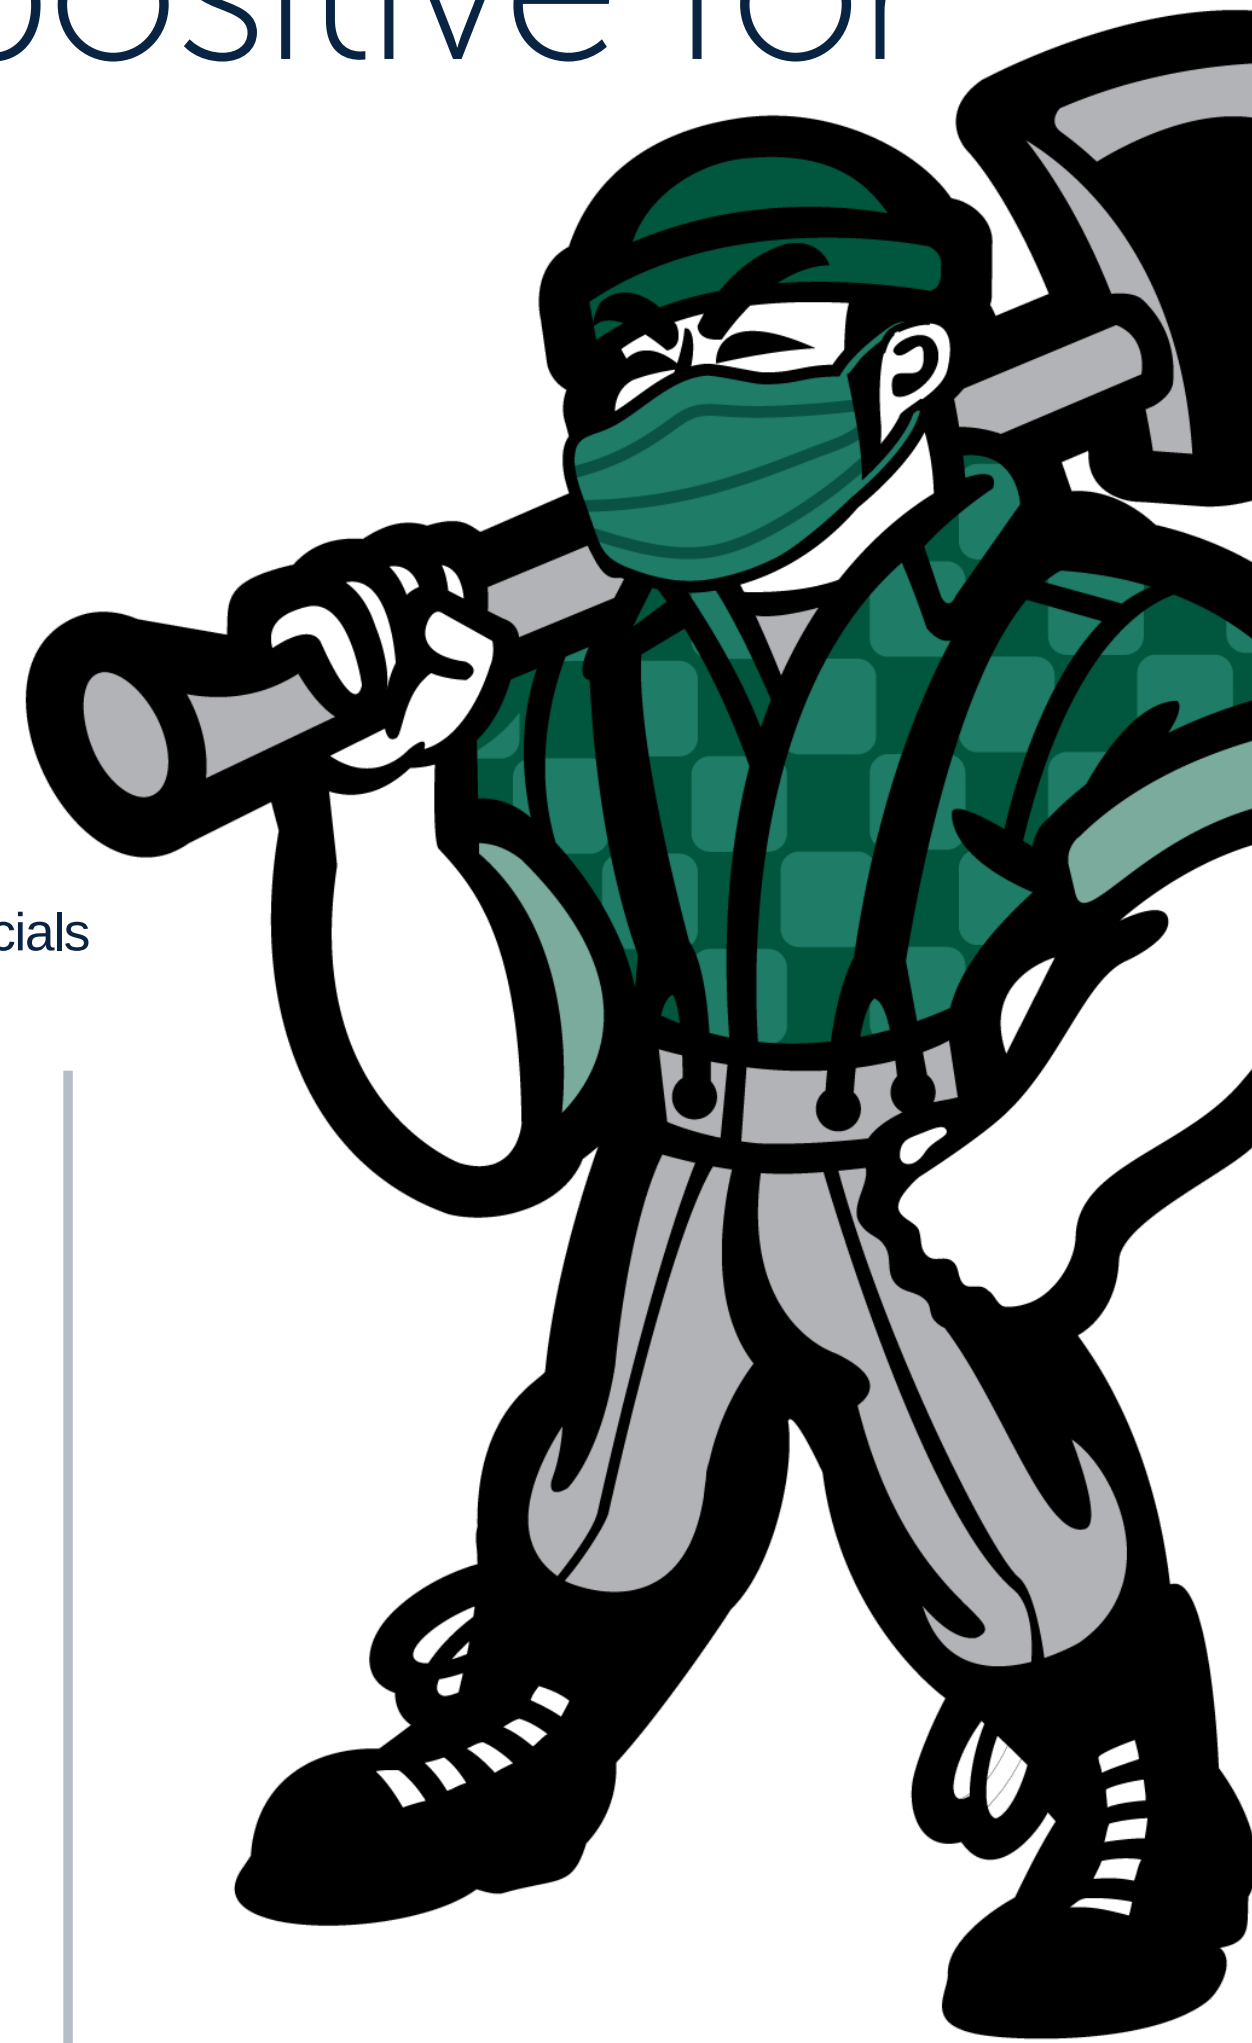

Student notifies Program Director: (260) 702-9620

IMMEDIATE ACTION STEPS:

- Student will consult healthcare provider and/or Forester Care
- University administration will evaluate, in coordination with local health officials, the student's level of exposure
- Student will transition into quarantine setting for 14 days
- Student will communicate with faculty to arrange remote course attendance

FOLLOW UP ACTION STEPS:

- The quarantine period will end after 14 days
- University administrator will need to confirm reintroduction to other campus spaces

If a student has minimal contact with an individual who tests positive for COVID-19

COMMUNICATION:

Home Campus

Student notifies Residence Hall Director or Office of Student Life: (260) 359-4299
Residence Hall Director notifies Dean of Students or Vice President for Student Life
Notification provided to Chief Operating Officer for coordination with local health officials

HU Arizona

Student notifies Director of Arizona Operations: (480) 939-5004

HU Fort Wayne

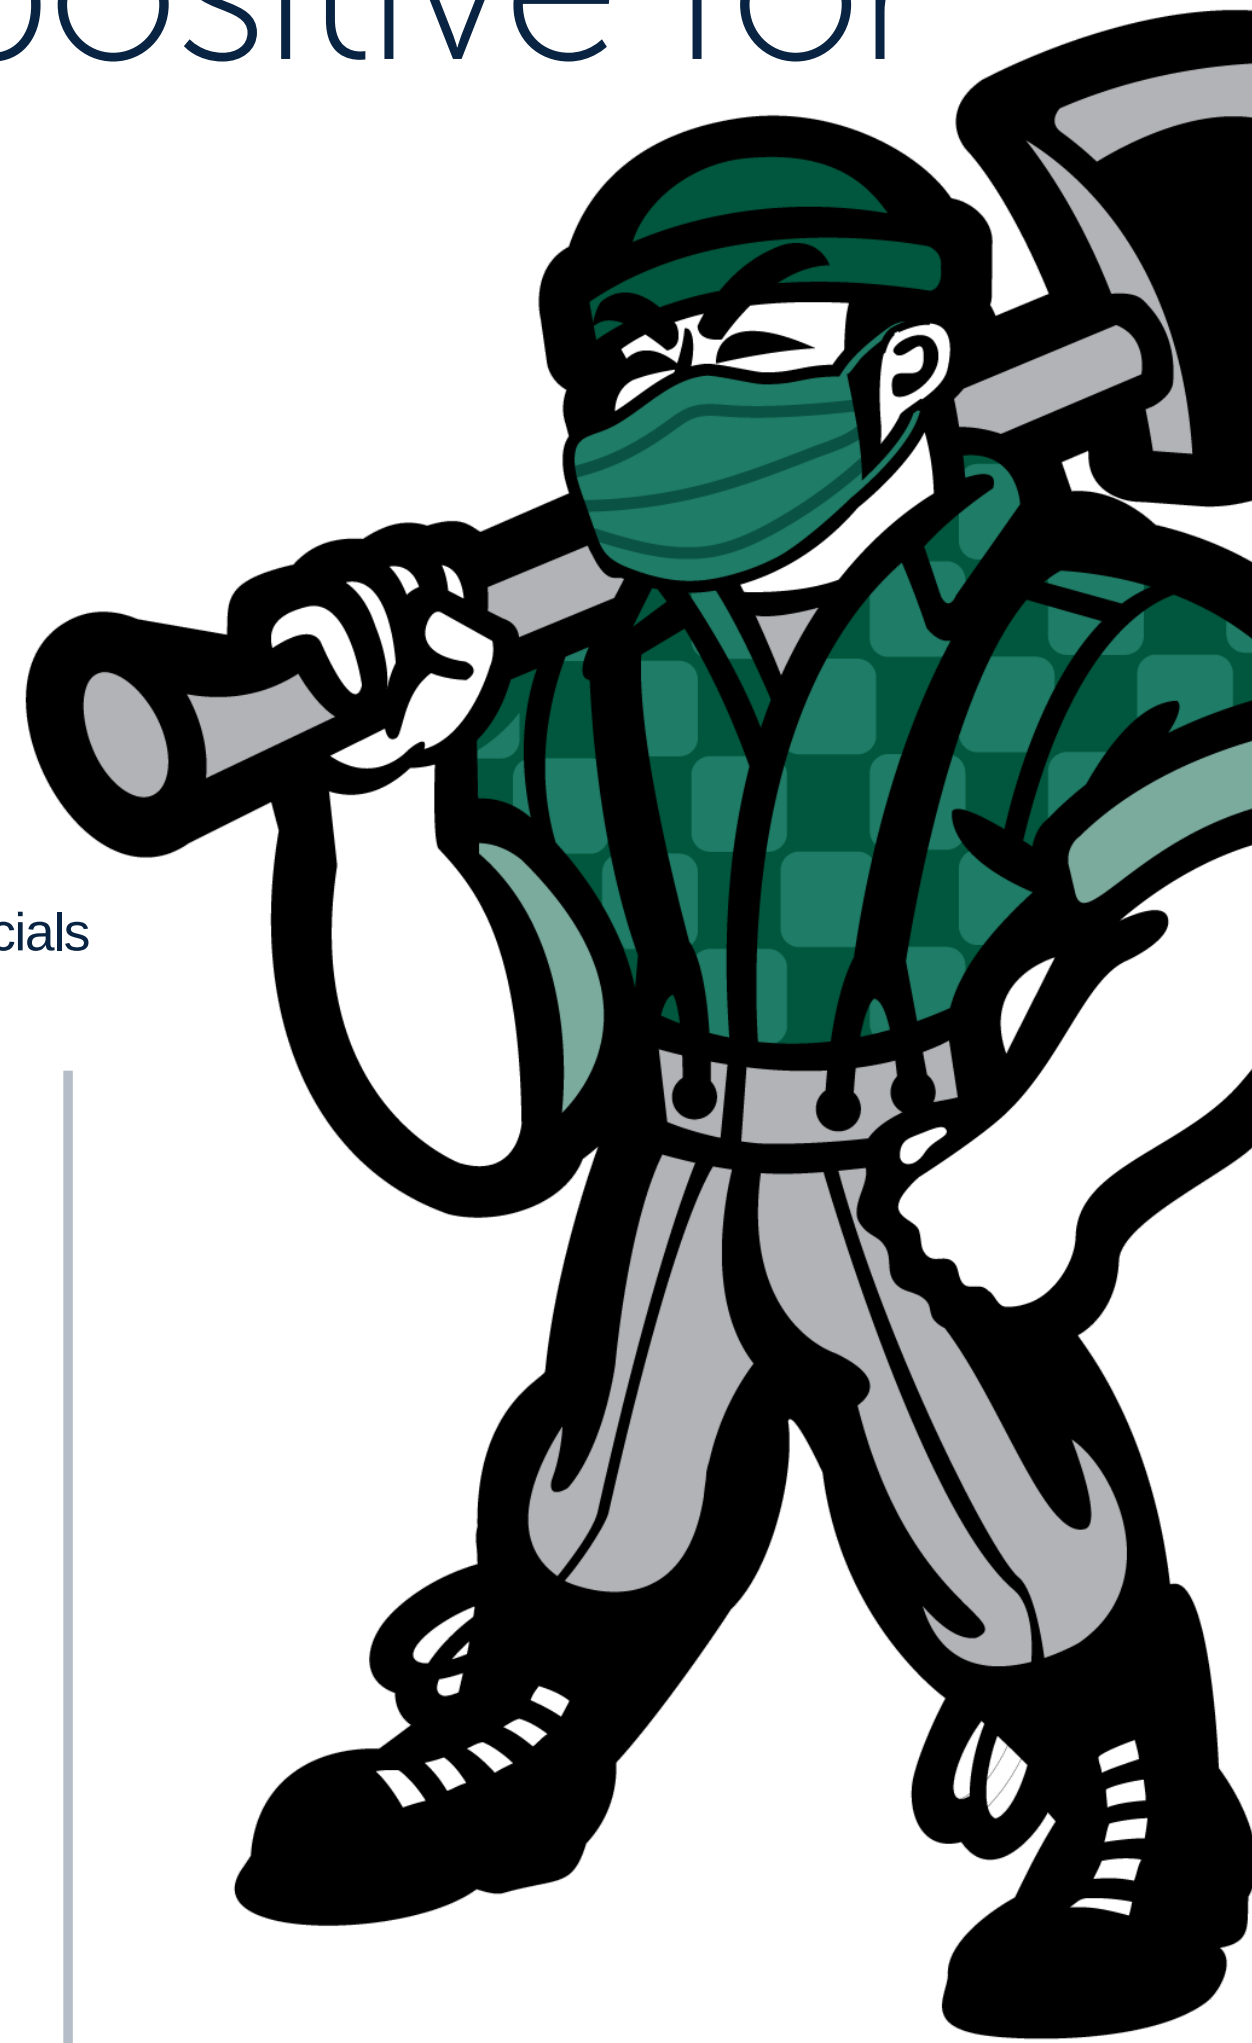

Student notifies Program Director: (260) 702-9620

IMMEDIATE ACTION STEPS:

- Student may consult healthcare provider and/or Forester Care
- University administration will evaluate, in coordination with local health officials, the student's level of exposure
- University may help transition student into quarantine setting if needed, which is unlikely due to this level of exposure
- Student will communicate with faculty to arrange remote course attendance if needed

FOLLOW UP ACTION STEPS:

- If a quarantine period is required, it will end after 14 days
- University administrator will need to confirm reintroduction to other campus spaces

If a student generally Doesn't Feel Well

COMMUNICATION:

Home Campus

Student notifies Residence Hall Director or Office of Student Life: (260) 359-4299
Student notifies faculty that he/she will not be in class; If applicable, student notifies coaches, employers that he/she will not be present for activities

HU Arizona

Student notifies Director of Arizona Operations: (480) 939-5004
Student notifies faculty that he/she will not be in class

HU Fort Wayne

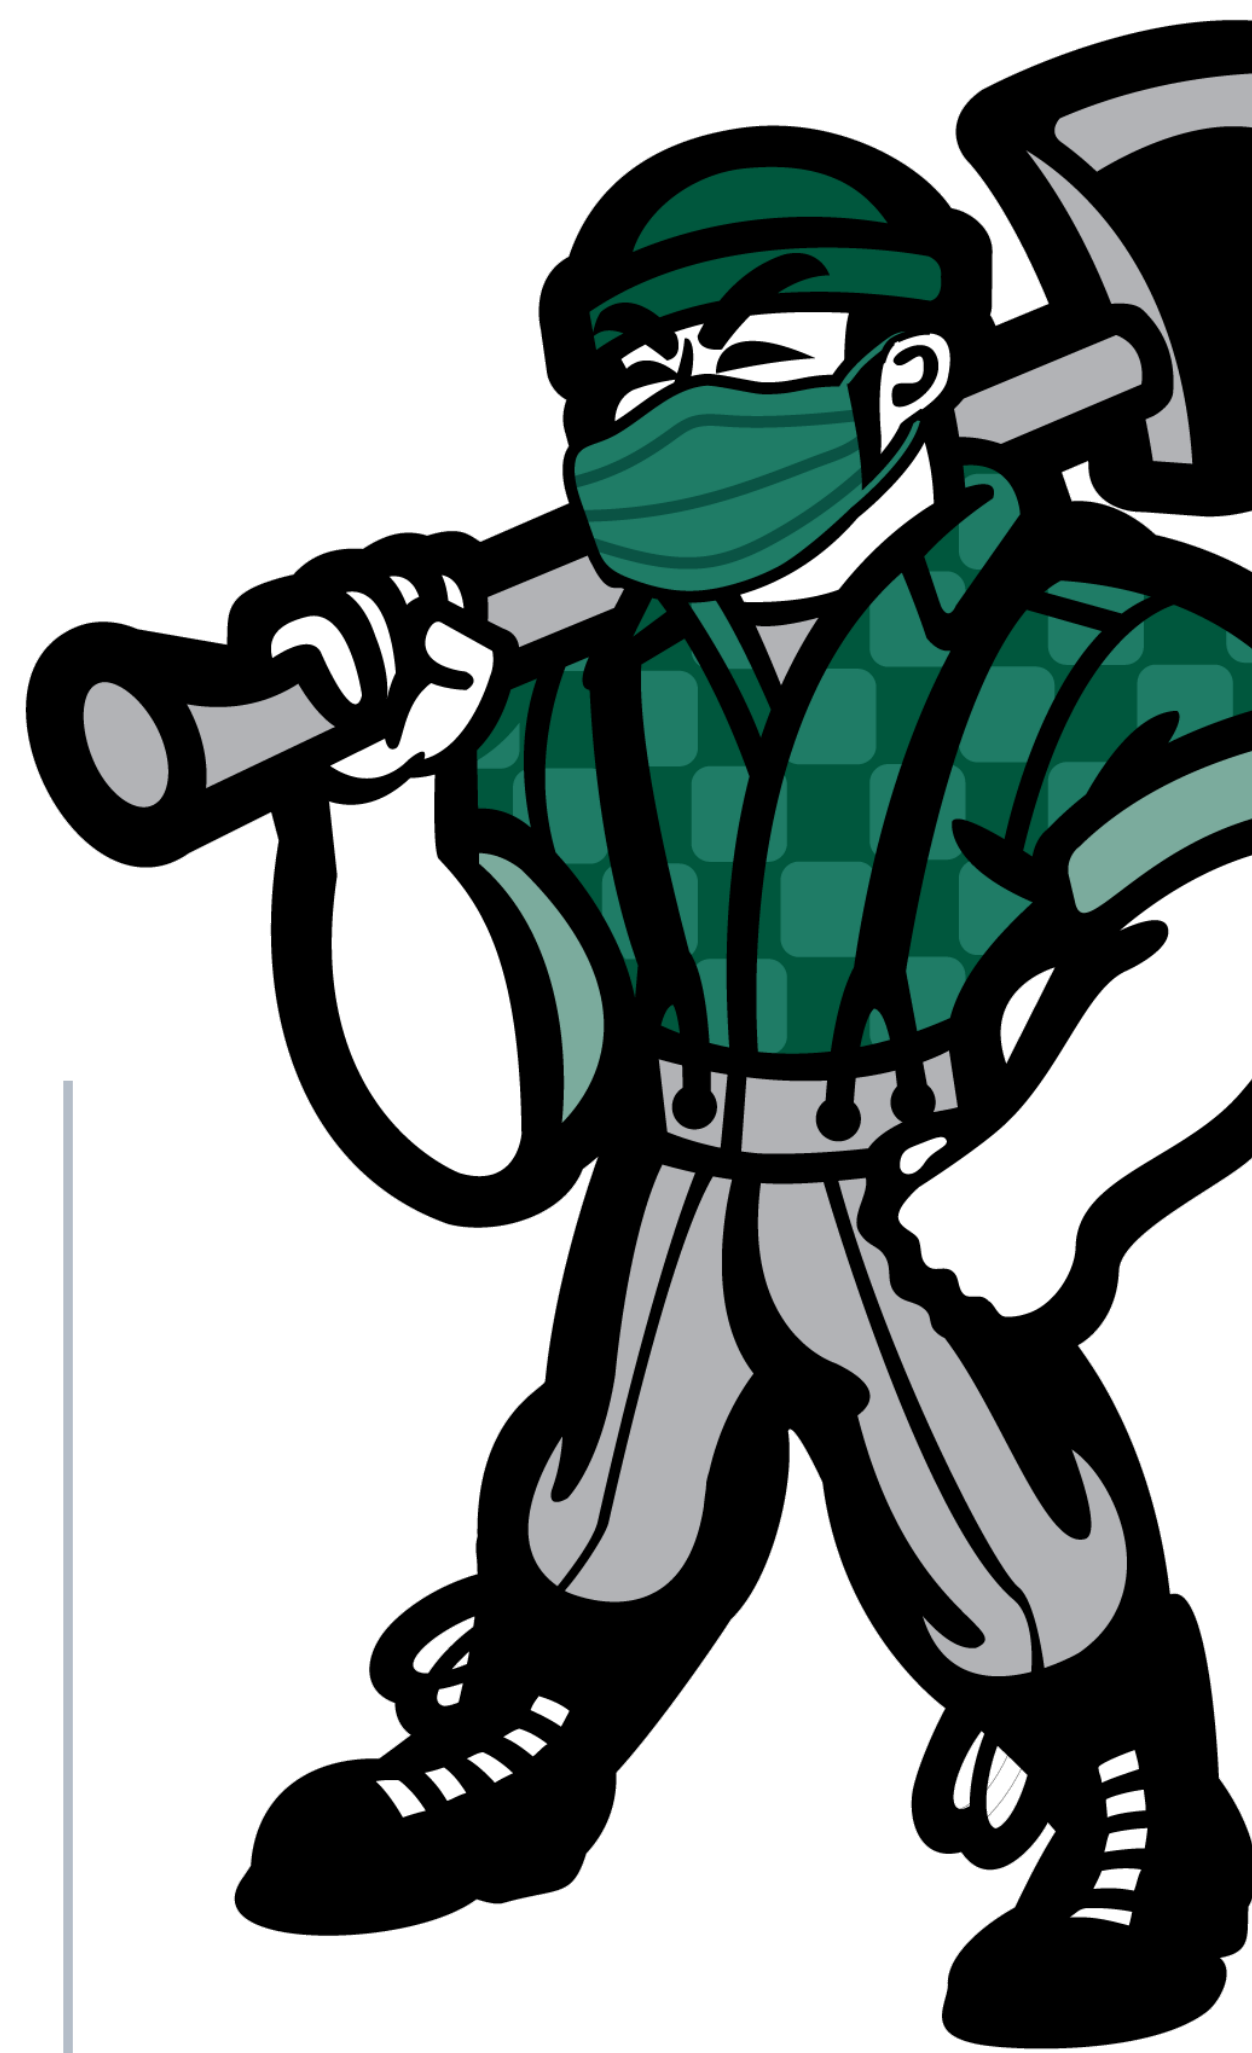

Student notifies Program Director: (260) 702-9620
Student notifies faculty that he/she will not be in class

IMMEDIATE ACTION STEPS:

- Student may consult healthcare provider and/or Forester Care
- University administration will help evaluate the student's symptoms
- University may help transition student into quarantine setting if needed, which is unlikely with limited symptoms
- Student will communicate with faculty to arrange remote course attendance for at least a temporary time

FOLLOW UP ACTION STEPS:

- If a quarantine period is required, it will end after 14 days
- If the student's symptoms subside quickly and are the result of another identifiable reason (e.g., allergies, doctor-diagnosed illness), the student may return to normal activity without a quarantine period

ISOLATION & QUARANTINE...

help protect the public by preventing exposure to people who have or may have a contagious disease.

Isolation separates sick people with a contagious disease from people who are not sick. **Quarantine** separates and restricts the movement of people who were exposed to a contagious disease to see if they become sick.
