

## RUSS DEGITZ IMPORTANT INFORMATION FOR YOU

---

My name is Russ Degitz; I am the chief operating officer for HU. I'm here to share some updates about our plans for a successful return to campus this fall in all three of our locations.

We are making extensive physical preparations to buildings and facilities; these include signage to remind us of CDC guidelines. There will also be doors labeled for entrance or exit only to ensure social distancing.

There will be extra cleaning all across campus throughout the day, as well as deep cleaning in the evenings. We have maximized our staff to ensure this, and we have also partnered with Performance Services to ensure our HV/AC units and our ventilation systems function as effectively as possible.

We will be promoting best practices as recommended by the CDC. This will include requiring masks at certain times and locations; we will also be promoting social distancing and having hand sanitizer available at various spots around campus, as well as recommending and promoting hand washing.

We have been in close collaboration with local health officials to make sure we are maximizing our opportunity to return you to a safe and healthy campus and to have a successful fall semester. We look forward to seeing you in the near future.

The quick and dirty (what you need to know):

- Buildings and facilities are being prepped
- There will be signs with guidelines. Everywhere.
- Cleaning will happen basically 24/7
- Masks and social distancing will be a general rule
- Wash your hands (seriously, we shouldn't have to tell you that)
