

Department of Art & Design Second Year Reviews

All Art & Design majors are required to participate in the second year review process, after the completion of a minimum of fifteen credit hours in studio art. The second year review process requires a 30-45 minute individual meeting with the art & design faculty. The objective of this review process is to evaluate your direction and accomplishments thus far in the Art & Design program and to determine if you are progressing sufficiently and thus may continue in the program. It is the student's responsibility to schedule and participate in the review process. ***Students must sign up for a review time at least one week in advance of the process.***

Each student is required to show 10 to 15 works from studio classes taken at Huntington.
If you have transferred in any of your studio art credits, you are expected to show examples of work from those courses.

- * Assemble your flat paper work in a portfolio with your name on the exterior. Drawings or two dimensional design works need not be matted but it should be mounted on a stiff backing which will enable the work to be displayed in a vertical position. Do not turn in rolled, torn or smudged works.
- * Paintings need not be framed.
- * Unavailable work may be represented by digital images or printed images. Each image should be labeled with your name, size of work (h,w,d in inches) and media. You are responsible for all preparations. Please make note of a need for a computer to view images when you sign up for your Review time.
- * A full sketchbook may be substituted for two works.
- * All work should be placed in the meeting room prior to the review.
- * Fill out the top of two review sheets and paper clip them together to the outside of your portfolio.
- * You may remove your work from the review room immediately after the review process. The faculty is not responsible for work left by students.

Fill out this form and leave with your work at the review time. One copy will be returned to you at the end of the review.
